

Gateway Soybean Oil[®]

Soybean oil is a vegetable oil extracted from the seeds of the soybean. Soybean oil has a low content of saturated fatty acids. It contains a high content of polyunsaturated fatty acids, especially linoleic acid (omega 6), offering beneficial effects on the circulatory system.

Gateway Soybean Oil is an edible, refined, bleached, and deodorized (RBD) soybean oil. It is one of the most widely consumed cooking oils, and its high smoke point makes it a valuable frying oil. It is commonly used in mayonnaise, salad dressings, sauces, various bakery products, popping and topping oils for popcorn, and throughout other industries such as cosmetics and pharmaceuticals.
